

I have extensive leadership experience institutionally (Korea University Medical Center, Department of Anesthesiology and pain medicine Head 2012-2018, Korea University Medical School, Department of Anesthesiology and pain medicine Chairman 2015-2017), nationally (President, KSA 2016-2018). While serving as the president of the KSA, I enthusiastically signed MOUs with a total of 7 countries (including the United States, Malaysia, Thailand, Taiwan, Hong Kong, Vietnam, Nepal, etc.), which was previously limited to China and Japan. I think this can contribute to the development of Patient Safety through exchange of new knowledge and exchange of clinical, cultural experiences between different countries. As a representative of the KSA and member of the Asian Regional Council of the WFSA, I will do my best not only for the responsibility towards the world of the KSA but also for the benefit of the Asian community. I have never worked for WFSA before, but this time I want to become a member of the WFSA and contribute to the common best value of Asian countries toward the world.
