Joining WFSA is an opportunity to contribute decades of experience in the diverse fields of my expertise.

1. Promoting efficient and safety alternative techniques in pediatric anesthesia.
2. Training doctors, nurses and paramedical personnel in how to control airway management outdoors and in hospital.
3. Trying to introduce different pain management techniques in the hospital and in community health care units.
4. Introducing and encouraging research and clinical studies in different fields in anesthesia and sedation.
5. Focusing on how to improve surgical outcomes in adults and pediatric populations.
6. To organize professional international meeting in various subjects, including trauma pain management, obstetrics anesthesia and sedation.
