I am Dr Kevin Umani Okech, currently a member of Kenya Society of Anaesthesiologists. If nominated to be on Council, I plan to attend the General Assembly in 2021 and if elected, I will also participate in the Council meetings. It is my hope to play a role in Council by carrying out its function as outlined by WFSA. Being a Council member, if elected, gives a platform to play a role for advocacy for education and mentorship for Physician Anaesthesia training in the African region. I also plan to play a role on research in the African region for enhanced recovery after surgery so as to achieve good perioperative outcomes, as we still face challenges on this.
